

KCSI Continuum 1 Online: Instruments and Supplies List

Instruments You Will Need

You will be responsible for providing all instruments and common office supplies from this list.

Instruments easy to have ready:

- Periosteal elevator: sharp point, sharp on sides, prefer curved on each end as a Molt #9
- Needle holder: 6" long is standard
- Surgical scissor: 6 " long is standard
- 151 forcep: "apical" style is the current standard (thin, tapered)
- 301 elevator: could be a different small elevator, about 2mm wide
- Luxator 3mm straight: sharp at tip, thin for 4mm, curved at tip
- Surgical spoon curette: long shank, 4mm wide at tip, sharp
- Root tip picks (2): like Heidbrink (#2-3) medium size
- Scalpel handle for 15 or 15c blade: prefer flat with ruler
- Retractor: Seldin 23 or Minnesota
- Rongeur and bone file: Prefer Blumenthal 30 degree rongeur and HF 2X bone file as it is very sharp.

Instruments hard to get, which you may need to borrow or buy:

- Mini Cryers: as HF 21-22 (5mm back to front, 5mm wide at base Cogswell B
- Adson-Brown 43 tissue pick-ups with multiple teeth

Other items you will need:

- "Surgical" highspeed handpiece (could use a regular highspeed (not standard of care)
- Slowspeed straight handpiece or surgical straight handpiece
- Cabinet space in operatory to work on.
- Gloves
- Masks
- Barrier gown to protect clothing
- Air (air/water syringe)
- Overhead light and headlight
- Sharps container

A/V Equipment:

- Strong WiFi
- Computer near the work area (usually a laptop)
- Webcam (preferably separate from the computer)
- Webcam stand
